It's never quite dark on the Street of Eyes, but the shadows there grow large and deep. You go to find a job.

There's no telling if you'll be coming back. Street is a Science Fiction trilogy set on a future Earth not so different from the one we know. Even in a world bursting with technology, there's still violence, vice, and oppression. Freelance telepath Gina Hart lives this reality every day on the bottom rung of society. Only, for her, it's about to get a while lot worse. This omnibus edition includes all three volumes of the Street trilogy: Empathy, Clairvoyance, and Precognition Empathy In the not-so-distant future, telepathy is no longer a fantasy - it's a job. Gina is a woman with no future, a member of the new, desperate underclass, who work freelance using a dangerous drug to give them the ability to read minds. When she happens to take a badly-planned job reading a bad person, she finds herself embroiled in the deadly mystery of a man who shouldn't exist. Now, hunted by gangs and madmen, she has to fight to stay one step ahead of her pursuers, all while trying to keep her mind from coming apart at the seams. From the author of The Impostor Prince and Written In Blood, Empathy is the first novel in the STREET trilogy. Clairvoyance Stranded in a hostile country, separated from her friends and haunted by terrible visions

ology. Clairvoyance stranded in a hostile country, separated from her friends and haunted by terrible visions, telepath Gina Hart is in a bad spot. Worse, she might be the only one capable of stopping an all-out war between the people who want her and her growing power for their own ends. It's just a question of how much more abuse her body and mind can take. Clairvoyance is the second novel in the STREET trilogy. Precognition It's been a long few weeks, but despite shaking the pursuers off their trail, Gina Hart and her allies get no time to rest. To understand what's going on in the present, they're forced to delve deeper into a dark past, uncovering knowledge which has been hidden since the birth of the oppressive, near-global Federation. Knowledge which may help prevent a nanorobotic doomsday weapon which threatens to destroy the future as they know it.

Precognition is the third and final novel in the STREET trilogy.
