This newly revised fourth edition delves into the most widely abused narcotic in the United States: prescription drugs. Drawing from his personal, tragic experiences and his background as a counselor, Rod Colvin offers help and hope to those who struggle with this devastating disease, as well as their families. The topics discussed include the nature of addiction as a chronic, progressive disease; drugs of addiction and how they hijack the brain; the most commonly abused prescription drugs; treatment options, including medical detox and family interventions; and insights on recovery offered by addiction medicine physicians. This latest edition includes an emphasis on treatment for painkiller and tranquilizer addiction. Colvin examines how powerful narcotics are fraudulently acquired relatively easily through doctor and pharmacy shopping, and buying drugs from rogue Internet pharmacies. A collection of compelling stories from addicts who describe their journeys into recovery are also included. Senate Caucus on International Narcotics Control hearing America's Addiction to Opioids: Heroin and Prescription Drug Abuse (United States Senate Caucus on
