The block has never been kind to Christopher Ascot, yet it furnished a comfortable lifestyle, put food on his hungry family's table, and paid the bills in his home so that his family could tread easy away from their struggles. After the murder of his family, Chris only lived to make his money, and focused on nothing else. When the health of his boss declines, the job becomes his. Unfortunately, with a series of murders pointing right and him and his men, Chris has more on his plate than he can stomach. But when he falls helplessly in love with a young woman (Savannah), it becomes more difficult to face himself, seeing as how he keeps his job a secret to make himself look better in her eyes. With a stalker on his back, a cop on his tail, a complicated love life, it becomes hard for Chris to continue to do what it is he does best. The streets stay calling through it all, and the money looks even better.

Join Chris on this difficult road to freeing himself from the block and its troubles. Hopefully he begins to make the right choices in life. The choices of a boss. All Savannah wanted to do was attend a famous Black college and stick it to her father to show him she was capable of doing things on her own. But life becomes heavy when her bills

start to pile up, and work overpowers her schooling and sleep schedule. Just as she feels she's about to give up, she meets a handsome young man by the name of Chris, who didn't quite sweep her off her feet during their first meeting. After adjusting to finally dating again, trying to balance her busy schedule, she's instantly taken on a roller coaster ride of events, from realizing she doesn't really know him all that well, to having their relationship torn apart by his stalker, and the unmasking of what his career really is. If things aren't hard enough for her, she suffers physically from the pile of drama that seems to force itself into her love life. Savannah struggles to hold on to who she thinks she loves with her soul, and still struggles to figure out what it is she truly wants to do with her life. Now that she's at the side of a boss, she has to try and figure out if she truly wants to be at the side of a boss or not, with the block screaming louder than her cries for him to pull away from it.
