Ruthie Gregg was the independent woman who had everything together. A homeowner with a successful job in advertising, and a busy social life, she never wanted to get serious with a man. Things with Kings of Chaos member, Skull, were meant to be fun and light.

Then she made the mistake of catching feelings without discussing their relationship status. Misunderstandings and indiscretions lead her to call things off. But life is a cruel mistress who wasn't done uprooting her perfectly managed existence. To get the life she's dreamed of, she must put her past behind her, and fight for her future with a man who just may be the love of her life. Tritt "Skull" Matthews was a man who wanted nothing to do with love. After watching the four letter word and mental illness destroy his family, he opted to take the path of a permanent bachelor. His brothers in the Kings of Chaos MC were all the family he needed until he took up with Ruthie. The mouthy red head with her vintage style and a strong back bone derailed his plans. When denial.

drinking, and self-sabotage doesn't shake her from his soul, he starts a new mission, to get her back at any cost. Happiness is within their reach if they're willing to lay the resurrected ghosts in their lives to rest. The things they fear the most holds them captive in invisible chains. Breaking free is imperative, lest they are doomed to repeat the past.
