Actual rating is 2.5 out of 5 stars. Full Disclosure: I received a copy of this book from the author, via Goodreads, in exchange for an honest review. My Thoughts: When I first read the description of Geek Games I immediately thought of that 80s movie, War Games. This book was quite different and definitely had more of the sci-fi element. Geek Games definitely suffers from a less than stellar book overview. It doesn't do the book justice and really doesn't make a reader want to pick it up.
